

# Luck O' the Greens...

## Celebrate St. Patrick's Day with Bio-chlor™ Liquid Greens!

**Eniva Bio-Chlor®** is a specialized dietary blend of liquid **Chlorophyllins** that help promote overall body health.\* Liquid chlorophyll is highly valued for its ability to **improve blood oxygenation** and **help cleanse the body**, especially the **liver** and **blood**.\*

Eniva's liquid chlorophyll product has combined chlorophyll from three well-recognized health benefiting sources in a **high-potency** formula:

- **Alfalfa** • **Spinach** • **Mulberry Leaves**.

By combining extracts from multiple sources, a unique product design is achieved – providing the body with a **broad spectrum** Chlorophyllin complex.

**Chlorophyll is the green pigment found in plants that harnesses the sun's energy in photosynthesis.** Within the plant, it performs multiple metabolic functions including respiration and growth. The chlorophyll molecule is chemically similar to human blood, except that its central atom is magnesium. In humans, this central atom is iron.

**Paraben Concerns:** Estrogenic effects of certain chemicals, such as parabens and their subsequent effects on the endocrine system of humans and wildlife, is of growing concern, especially regarding women's health risks for breast health and men's reproductive organs. Be assured that Eniva Liquid Bio-Chlor is **PARABEN FREE** using only natural compounds for delivering freshness.

**Eniva's liquid chlorophyll is PARABEN FREE!**

### Recipes and Ideas:

#### Shamrock Juice:

- 2 quarts water
- 6 tablespoons Bio-Chlor
- 2 scoops ATP-Pro (optional for additional energy)
- Natural Sweetener to taste if desired
  - Apple Juice can also be substituted for 4 cups of water.

#### Leprechaun Mint Tea:

- 2 cups warm water
- 1 - 2 tsp Bio-Chlor

#### St. Paddy's Day Melt-away Punch:

- 2 two-liter bottles of lemon-lime soda
- 1/4 cup Bio-Chlor (Add more if you desire a darker color green)
- Quart container of green sherbet.

Combine the Bio-Chlor and lemon-lime soda in a large punch bowl. Use an ice-cream scoop to scoop the green sherbet and drop into the liquid mixture.

### FESTIVE TIPS:

- **Food Coloring** – Remember to grab the **Bio-Chlor**
- **Festive Drinks** – Add a tsp. of **Bio-Chlor**
- **Green Frosting** – For cookies and cakes, add **Bio-Chlor** to desired color
- **Green Jello** – Add a few teaspoons of **Bio-Chlor** for extra rich color
- **Natural Ice-cream Topper** – Drizzle **Bio-Chlor** over natural ice cream for a minty dessert
- **Cream Cheese Spread** – Add **Bio-Chlor** to cream cheese for fun dip or spread for crackers/or top celery
- **Whipped Cream** – Add **Bio-Chlor** for rich green color
