ENIVA REWARD PROGRAM RULES

- SmartOrder Reward Points are non-transferrable.
- A qualified order per your management level must be processed before or at the time of redemption in the current month in order to redeem the Smart Order Reward Points.
- If someone cancels or "goes off" of Smart Order, they lose their accumulated SMARTORDER REWARD POINTS.
- SmartOrder Reward Points are earned on all orders based on the net SV (Sales Volume).
- SmartOrder Reward Points are attached to the Customer/Member account which the order is placed, and can only be redeemed on orders placed under that Customer/Member ID.
- SmartOrder Reward Points are only redeemable on full price items and those with CV (Commission Volume).
- SmartOrder Reward Points redemption cannot be used toward any Vibe or ResVante product.

- Products purchased as part of a Bronze or Gold Pack, or any other Discount Pack.
- Should an Eniva Customer/Member want to order earlier than their SmartOrder date, this order must also be a qualified order.
- SmartOrder Reward Points expire in the 4th calendar month after they have been earned, if not used.
- SmartOrder Reward Points accumulate on all orders placed during the month, if a qualified order has been placed.
- Shipping will be charged on the full product invoice total before the SmartOrder Reward Points are redeemed.
- SmartOrder Reward Points will be calculated after the month closes and available for viewing 4 days thereafter. The calculation will total up all SV on the eligible orders placed during the month and take the percentage of the SV according to the SmartOrder Reward Points earned (e.g. 5% or 10%).
- The Eniva Visa Card is available to USA Customers/Members only; it does not include Puerto Rico or other International entities.
