

Replenishing the Essence of Vibrant Health™

## Former Amway/Quixtar Diamond Leaders Find New Home at Eniva Nutraceuticals

FOR IMMEDIATE RELEASE (March 2009)

(MINNEAPOLIS, MN) Minneapolis-based Eniva Nutraceuticals™ announces the addition of Jim and Julie Harstad to its group of highly accomplished network marketing professionals. Their remarkable achievements and expertise are the perfect complement to Eniva's already expansive community of worldwide, home-based business owners. Former Amway Quixtar Diamonds, the Harstads (harstads.biz) were top company performers throughout an impressive 28-year career. Jim and Julie ran the second largest Amway business in the Midwest, having earned the prestigious Diamond level status for 14 consecutive years. They travelled throughout America and the world as keynote speakers, and Jim was an integral member of World Wide Dream Builders Management Team. Julie was one of the top female speakers on the Dream Builders circuit, sought out not only for her powerful and talented presentations, but also for her skills in teaching and mentoring others. The Harstads are most known for their ability to significantly grow and sustain a dynamic distributorship and loyal field organization.

Stated Eniva CEO, Andrew Baechler, "It is a great honor to have Jim and Julie Harstad join Eniva's Field Leadership Team. Their commitment to helping other people, their passion for family and faith values, and their desire to empower people through wellness make them a tremendous asset to the whole organization. Their outstanding success and distinguished careers as networkers will be a great addition to our existing base of marketing veterans. The Harstads have had an impressive textbook start already... they are an amazing team with an exceptional work ethic."

Commented the Harstads, "We are delighted to have a new home with Eniva. We diligently researched 30 network marketing businesses and Eniva rose to the top. The products are superior, the marketing plan provides income success for any type of businessperson, and the owners share the same values and principles that we do. For both us and Eniva, it's all about helping people prosper in every area of their life. With the excellent team we have formed, and the support of Eniva's corporate staff, we are excited to help take wellness to the world."

Jim is a St. Cloud State University alumnus, having earned All-American Wrestling Honors and is in the SCSU Athletic Hall of Fame. He is also an inductee of the St. Cloud Tech High School Athletic Hall of Fame. Julie, an exceptional sales force trainer and marketing professional, is proficient in photography, fashion and beauty interests as well. In addition to running a successful home-based business, the Harstads are raising a successful family with five children in Orono, Minnesota.

Founded in 1998, Eniva Corporation specializes in the design, manufacturing and marketing of innovative, science-based nutraceuticals. Recognized by Inc. Magazine as the 55th fastest growing company in America in the category of Health, Eniva has attracted nearly a half million people to its membership, sharing more than 100 wellness products with millions of users worldwide. Known for its key products VIBE™, Efacor™ and Eniva Cholesterol Reducer™, Eniva continues to be the pioneer in liquid nutrient delivery systems.
